## E D I T O R I A L S

The main trouble with all athletics of this company has lack of support given to the teams by the rest of the camp. There has been a tendency to take victory as a matter of course, and then ride the players when the team loses.

A first class team can not be developed without the support of the entire company. Right now the football squad is beginning to hit its stride. The players are showing more enthusiasm and are turning out in larger number for daily practise than at any time during the season. The squad has maintained its spirit despite several set backs, and is just before reaching its peak.

The players have done all their part, and if the rest of you want to see a winning club this fall it will depend upon you.

Talk up football, give the players a break, and when they start playing come out, and yell for them.

Driving along the old Ingraham Road the sightseer will find a lot of men putting time to death by their supposedly fast and quick erection of a stone wall. The wall is rather pretty and the men are busy, but don't let them fool you. That is just because the leader is around, and they don't want KP.

However, investigation on the sightseer's part will show him that the CCC's are really a worthwhile organization, and easily the one to best of President's Roosevelt's, "Made Work" projects.

The crew of enrollees that first came under the sightseer's seights is one under Mr. Murphy, and Mr. Low. So there you have the forty men very busy, and the two foremen busiest of all because they are trying to tell somebody else

(continued on page four)

## EDUCATIONAL

Sunday morning at 9:00 A.M. trucks will leave for Greynolds Park. Greynolds Park is the project completed by CCC Co. 269. It is a very beautiful place and cameras will be in order.

Plans are now being made to obtain a projection machine so that a moving picture program may be enjoyed. This should provide interest in entertainment especially, toward the end of the month.

Chaplain Neville plans to reach this camp two thursdays each month. It is planned to enlarge the musical program begun this last Thursday. It is hoped that others will follow the lead of last Thursday and apply their hidden talent.

Questionaires will be distributed and it is requested that it be filled. It is planned to start some new classes; if you are interested in Chinese, cross work puzzles, Barbering or what have you, let us know.

When you get ready to leave the company it would be nice to have an educational certificate with you. It will help you get a job. An employer wants to know what you do in your spare time.

Be wise and take an opportunity its only given once.

## WANDERER

Wanderer is a specific reference to Co-1421,  
 On the move almost since the SC began.  
 Always working real hard for conservation,  
 With no outlook for an annual vacation.  
 National forestry men to give labor instructions  
 Envolvingly close for any corrections.  
 Dependent is each man in his line of work,  
 Never having reason to quit or to shirk  
 Emergencies are answered immediately upon call  
 They are ready to aid in anything at all.  
 Roosevelt-Daddy of this very large organization  
 Has watched it grow beneath the sun..  
 Even state was doubted many men,  
 So financial America can return again.  
 Remittance of a monthly cash allotment,  
 Has helped many families to pay the rent.

Geo. DeVott

## ART EXHIBIT

Friday, October 25, all enrollees who have been studying art under Doc. Miss Farnolds, will exhibit their work in the camp library. The exhibit will be open to the company throughout the regular library hours.

Every member of the art class will have several selections on display. There will be an extensive variety of subjects varying from portraits to landscapes. A number of prominent artists and art critics have been invited to attend.

The camp work of the students will also be displayed to show the improvements which have taken place.

A reward will be made for the best exhibit. The jury which will decide on the merit will consist of Capt. L. W. Fabian, Miss G. M., A. W. Housner Jr, Educational Advisor, Joseph C. Cline, Project Engineer and Dr. Miss Farnolds Artist.

It seems that George DeVott was at the East Dec State football.

It also appears that you have to be a football hero to get along with the girls of East Dec. The Executive Secretary of the East Dec State football team when he turned in his uniform.

## SAITS MAN

Mr. George S. Saits was born in the good old month of April, on the 14th instant of 1913.

He is our assistant first aid, and it is he who gives us the CC pill when we ask for an aspirin tablet, and souses us with mercurchrome for every ailment from a hangnail to false teeth just because he likes a lot of color, and got into the mercurchrome habit when he was at the Navy. He did a night bit of work theretoo in spite of being first aid. Mr. Saits attended school in St. Peter's and Tallahassee. At the age of 16 he began artist work while attending school. He went on to a tobacco plantation but as he didn't like it he decided to find employment in a peach orchard. He was better than tobacco. Even if you have to go to the orchard as he did to pick them.

He has had only one peach (apple) of the Touraine variety. He is a peach to the peach and the first time he left there he arrived in Florida two days later. He is a peach to the peach and the first time he left there he arrived in Florida two days later.

He is interested in floristry and aviation but doesn't like to fly.

He is a peach to the peach and the first time he left there he arrived in Florida two days later. He is a peach to the peach and the first time he left there he arrived in Florida two days later.

## GARRETT'S GIRL FRIEND

Since Garrett's best girl friend left Miami; he has been in the well known C.C.C. fog.

While Garrett enjoyed the close companionship he almost broke the government. He wore out three pairs of shoes showing the big city of Miami to her, and next day he would not feel like doing any work.

Well now that the girl friend has gone we all notice a very distinguishable change in our CCC buddy, and he seems to be gaining all the time.

(continued from page two)

what to do. We forgot to tell you that the leaders we mentioned are, Will White, Glen Whidden, Harry Chatfield, and Roney Willis, so it's easy to see why Mr. Lowe and Mr. Murphey are the busiest men. But nevertheless the rock crew still does most of its work sitting down because you have to sit down to chip rock, and to build a rock wall you really, and truly have to chip rock.

The erecting (we mean the rock layers) have it rather soft as all they do all day is to put trowels of soft mud between the very hard rocks to keep them together. (All of the big rocks are left for Allen as he weighs a mere two twenty flat.)

## OVERHEAD VISITS BREWERY

A group of the camp overhead, consisting of ten men visited the Wagner Brewing Company Friday.

They were shown through the entire plant and the various processes of making the beer were shown and explained to them.

Everything was seen from the top floor where the dry mash was down to the bottling room where thousands of bottles are washed and sterilized.

## POISON IVY OR OAK

These plants which commonly cause skin poisoning belong to the sumac family.

Poison Ivy is a shrub or small tree, with oval, pointed leaves arranged in clusters of seven to thirteen on a stalk. While poison oak is a creeper or a climbing plant with broad leaves, sometimes slightly matched arranged in clusters of three.

Both plants have red berries.

Prevention is naturally to avoid these plants. Remember there is no certainty that if you have handled these plants at one time without injury that the same will be true on another occasion.

## -SYMPTOMS-

The symptoms are those of a severe inflammation of the skin. This of course appears more often on the exposed parts, usually the hands, arms, and face. The skin becomes much inflamed and swollen, blisters form and even pus sometimes. There may be also the loss of the upper layers of the skin and a red weepy surface. The pain, itching, and discomfort is severe. A doctor should be called promptly.

A very good, and simple treatment is a wash of two or three per cent Boric Acid solution followed by the application of Zenic Ointment.

## -OTHER REMEDY-

Lime water for the wash, and carbolyzed vaseline for the ointment are very good remedies. The Ointment should be washed off daily with the wash, the part dried gently and the ointment reapplied. Later a saturated solution of Epson Salts has been highly recommended.

Another very good remedy is to apply a paste made from baking soda and water to the affected parts and cover with a damp cloth. This treatment should be repeated every eight to ten hours.

# S P O R T S

## FOOTBALL

The first blackboard lesson of the season was held Friday night. Plays were illustrated and the blocking assignments were shown to the individual players.

Field work is progressing rapidly. Linemen are becoming proficient in their duties with special emphasis on charging.

Backfield men are behind drilled in punting and returning the ball. Ross, King, Shaw, and Fannin have been getting off some long boots.

## WORLD SERIES

Detroit finally managed to win its first World Series four games to two for Chicago.

Bridges and Warnecke were the pitching heroes each winning two games.

Rowe also pitched two good games but he was matched against Warnecke who held the Tigers helpless in the two games he started.

Klein's home run with one man on own the fifth game for the Cubs. Klein, who was the leading National League player with the Phillies has done very little while at the Windy City. However he is expected to give Vaughn a tough battle for the hitting crown next season. Cochrane will not stand pat on his line up.

## BASEBALL TEAM LOSSES TWO

The Sunshine Brooms were just too strong for the Wanderers last Sunday and at the second game the home boys had lost two more games.

Quesada hurled the first game but poor support in the field and heavy hitting by the Brooms made eleven runs to four for the Wanderers.

Shaw did the chunking in the second game but the Brooms also got to him for eight runs, while our team could only get six.

Varon caught both games.

## PACKARD TO HANDLE TEAM

Pop Packard, project foreman, has accepted an offer to take charge of the baseball team.

He has handled several independent teams and should make a capable mentor.

He is undecided as yet what changes he will make if any but plans intensive drilling sessions.

## TENNIS TOURNAMENT

If enough interest is shown a tennis tournament will be arranged and anyone interested see the Educational Adviser.

Singles will be played and doubles if enough are interested.

BY  
"THE MITWIT"

And again "Consomme" bell goes to the woods. He was going to quit anyway.

For some reason or another Earl Gonzalez got up the other morning with his fingernails painted red.

"Yoo - hoo - hoo HAIL."

Frank Smith just returned from the hospital and already he has begun to flirt with women.

What-a-lie, What-a-lie!

Look's like our friend German is lost. At least we hope so.

And then there is Jimmie Gills, who tells a girl "Your eyes hurt my heart."

Forever it's not so bad until they hurt your pocketbook Jimmie.

Mira still insists that they should have napkins, toothpicks and fingerbowl along with blonde waitresses in the Mess Hall.

They tell us that the first time Posey put on a pair of G.I. shoes he tried to go straight to death.

Permit me to suggest that they go to some social or so. For the last several weeks they have been attending bridge parties, teas and buncos at the neighbors.

Elount has sworn of Bushkill and Parbecue stands. Has some gal done him wrong.

His personality must be getting away from him.

We wonder why streamline's hair is so sensitive. Maybe it's because so many girls have been playing with it.

Whom is it who wants a lock with out a key? And why?

Veigler wants to get home more often. He has a good reason though not a perfectly straight one. Ask Fannin.

We hear that Cecil Lewis is under studying "osley for the dynamite crew.

Keep it up Sergeant, glory will be yours if you let Colonel see some of your army activities.

ALL THE MISTAKES, MISSPRINTS, FUDGELYS AND WHAT HAVE YOU, YOU CAN BLAME OR THANK "WIDE OPEN KELLY" ALTHOUGH HE CALLS THEM TYPOGRAPHICAL ERRORS, SO "THINK NOTHING OF IT" "CORRECTION FLUID"

Incidentally yours truly was also mixed up in that "Red Finger nail" affair.

He was shot at last night but forgot to bring his helmet.
